These three questions had fairly high “no opinion” responses. John asked for additional input, but no other questions were tagged for removal. It was moved that these three questions be removed from the Survey. The motion passed unanimously.

Chip Todd then moved that the following comment be added:

The Faculty Senate does a good job of representing the Montana Tech faculty.”
It was suggested that this is a survey of administrators, and the Faculty Senate has no power of any kind, only advisory capability. There has been no avenue for feedback of administrators until this Survey was adopted. The Senate consists of unpaid volunteers who serve for two years. Faculty members are elected into the Senate in the Spring. Feedback is inherent in a free election process. The Senate could be evaluated along with other committees that are strictly advisory.

The motion to evaluate the Faculty Senate passed, with 5 voting in favor of including the new survey statement, 3 voting against, and 1 abstaining.

2. Instructor Position – Step System

In our ongoing discussion of the tenurable Instructor position at Montana Tech, the Senate is continuing to discuss appropriate levels for hiring and stepwise promotions. The Handbook states:

**Faculty/Staff Handbook 206.3**

**Instructor:** The rank of Instructor is generally reserved for those who teach lower-division and certificate-level courses. While levels may be available within the rank, it is not normally expected that an instructor would become a Professor. Teaching excellence and continued effort and accomplishment in the areas of professional development and service are expected for continued employment.

We are continuing to discuss the role, scope and identity of the position of “instructor”. The proposed step system, which is a modification of the COT levels is as follows:

**Level I:** No degree through bachelor's degree

**Level II:** Appropriate bachelor's degree and five (5) years of full-time related teaching or occupational experience,

**Level III:** Appropriate master's degree and ten (10) years of full-time related teaching or occupational experience, five (5) of which must be in an instructional position at an accredited post-secondary institution.

**Level IV:** Appropriate master's degree or doctorate and five (5) years at Level III.

The Senate is proposing the following changes to the step system:

It was moved and seconded that the Faculty Handbook should state:
The proposed minimum qualifications for stepwise promotion and hiring of instructors include the following levels.

The motion passed unanimously.

**For Level I:** - The motion was made and seconded to include “appropriate” before bachelor’s degree.

**Level I: No degree through appropriate bachelor's degree.**

The motion passed unanimously.

**For Level II** – The motion was made and seconded to change the wording to the following:

**Level II: Either an appropriate master’s degree or an appropriate bachelor's degree with five (5) years of full-time related teaching or occupational experience,**

The motion passed unanimously.

**For Level III** – The motion was made and seconded to change the wording to the following:

**Level III: Appropriate doctorate degree or a master's degree and five (5) years of full-time related teaching experience at an accredited post-secondary institution.**

The motion passed unanimously.

3. **Dennison’s Visit** - April 28th
