C. Faculty Opinion & Satisfaction Survey

1. Overview of the survey results
The Satisfaction Survey was sent to all Montana Tech, Bureau of Mines and Highlands College faculty members. Unfortunately an accurate list for part-time faculty could not be obtained, so part-time faculty members were not included. Of the 133 possible, 55 faculty members responded. The results haven’t been thoroughly reviewed, as the survey just closed. Downey passed a single copy containing the tallies and comments around for Senators to quickly review. He invited senators to drop by his office if they wanted to spend more time reviewing the survey.

2. Discussion of path forward
Downey suggests that the survey results, tallies and comments, are sent to the Chancellor and eventually to President Royce Engstrom. He suggests that packets are created, containing tallies and comments relevant to particular administrator, and sent to that administrator. Since, as expected, some of the comments were very pointed, he suggests not posting all comments for the public.

Discussion:
• There must be a way to communicate to the faculty, in a humane way, the themes of comments.
• Only the tallies could be posted.
• An executive summary, containing the less sensitive points, could be developed and placed onto the Senate website.
• What will come of this? If there is an item which stands out as a problem, will we bring the relevant people in to discuss what will be done about this?
• We could invite the relevant administrator to a future meeting for discussion.
• The results need to be sent to President Engstrom
• The same report should be sent to Chancellor Blackketter and Engstrom.
• We could give Blackketter an opportunity to respond before sending the report on to Engstrom.
55 respondents out of 133 is about 41%.

Path forward:

The Senate officers will digest the results and put them into an executive summary, which will be shared with the Senate. If Senators want to see the survey itself, they can drop by Downey’s office.

In addition, the officers will create a general report, including all comments, that will go to the Chancellor and a series of reports which will go to the relevant individuals with all relevant comments.

Post the survey results but not the comments on the Senate website.

The Senate Chair will send a thank you note to all the faculty for responding and inform them that the results are posted on the website.
