STAT 216.01 – Introduction to Statistics  
Dr. Suzan Gazioğlu  
Fall 2013  
MUS 207 (496-4616)  
CRN: 71405  
sgazioglu@mtech.edu

Class Hours: MWF 10:00 – 10:50 am MUS 205

Office Hours: MWF 12:00 – 1:00 pm  
(also by appointment)

Prerequisite: Must have taken and passed (Minimum grade of C-)  
Math 0102 / M 95 (Intermediate Algebra), or equivalent.

Textbook: Introduction to the Practice of Statistics (7th ed.) by Moore, McCabe & Craig.

Moodle: I will use Moodle for the announcements and assignments. However, you are responsible for all announcements and assignments that are given in class or by e-mail. To access Moodle: Go to the Montana Tech’s homepage (www.mtech.edu) and click on the MYMTECH at the top.

Calculator: A calculator that will add, subtract, divide, multiply, and raise numbers to powers is required for the course, and used on in-class assignments, quizzes, and exams. You are expected to bring your calculator to every class and exams. Sharing calculators in exams is not allowed. Calculators on cell phones are not to be used on exams.  
You are responsible for knowing how to use your calculator.

Course Description:
The approach to statistical problems will be technique-oriented with an emphasis on applications.

The topics covered in this course will include the following standard topics:  

Upon completion of this course, it is expected that a student should have a developing understanding of some of the central ideas in statistics, probability, and an appreciation of the role Statistics has in science.

Attendance Policy: I will not take formal attendance. However, you need to realize that regular attendance is very important and is essential for your success in this class. In addition, you should realize that you are responsible for all announcements made and material covered in class, regardless of whether or not you were present.
Behaviour: Rudeness will not be tolerated. Rude behaviour, including but not limited to arriving late, leaving early, and talking out of turn, will result in one warning. If the behaviour continues, 5 points per infraction will be subtracted from the offender’s point total.

Cell Phone Policy: The use of cell phones, pagers, PDAs, or similar communication devices during scheduled classes is not allowed. All such devices must be turned off or put in a silent (vibrate) mode and ordinarily should not be taken out during class.

Cell phones, pagers, PDAs, or similar communication devices are not allowed during the exam. If any student is seen using or looking at such devices, he/she will receive a grade of zero on the exam. If you are expecting an emergency call, please notify me before the exam and I will hold your phone for you.

Disability Services Policy: Students with disabilities who believe they may need accommodations in this class are encouraged to contact a Montana Tech Disability Coordinator (DSC) at 496-4429 (North Campus) as soon as possible.

Any student who may need an accommodation due to a disability, please make an appointment to see me. A letter from a Montana Tech DSC authorizing your accommodations is needed.

Homework: Regular homework (HW) assignments will be given in every class and you are expected to do it, however, no HW will be collected to be graded. You need to do these assignments in order to understand the material and do well in this class. And since most of the quiz/exam questions will be similar to the HW problems, I encourage you to work on each assignment.

There will also be some in-class assignments. Some of these in class assignments may be collected and graded.

Quizzes: There will be several quizzes throughout the semester. They may or may not be announced in advance and will be given in the first or last 15-20 minutes of class. There are NO make-ups on quizzes for ANY reason!!!

Exams: There will be three in-class midterm exams and one comprehensive final exam (see the dates under the Tentative Examination Dates section). A missed exam will earn the grade of zero, unless the student has a legitimate reason (such as an accident or sudden severe illness) to miss the exam that day.

Those students must contact me as soon as possible. In such cases, you MUST provide a proof (such as a note from your doctor or a police report) in order to have a make-up exam.
Grading Policy: Grades will be assigned on the basis of

- Quizzes & In-class assignments (Total) 15%
- Exam#1 20%
- Exam#2 20%
- Exam#3 20%
- Final Exam 25%

And the following grade scale will be utilized:

- 93% and higher: A
- 90 to 92.9%: A-
- 87 to 89.9%: B+
- 83 to 86.9%: B
- 80 to 82.9%: B-
- 77 to 79.9%: C+

- 73 to 76.9%: C
- 70 to 72.9%: C-
- 66 to 69.9%: D+
- 63 to 65.9%: D
- 60 to 62.9%: D-
- 0 to 59.9%: F

Tentative Examination Dates:

- Exam 1: Wednesday, September 25th
- Exam 2: Wednesday, October 23rd
- Exam 3: Wednesday, November 20th
- Final Exam: Thursday, December 12th (11:30am – 1:30pm; MUS 205)

Drop Deadline: November 4, 2013. A grade of ‘W’ will be assigned.

Evacuation Drills: In the event of an emergency situation where a building must be evacuated, or when evacuation drills are occurring, follow these instructions:

- From this classroom, we will exit the building and proceed to Park Street and to the assembly area at Leonard Field.

- Once you reach your assembly area, find an emergency response assistant with a clipboard to sign in. They should be wearing orange vests and carrying orange flags for easy identification. **It is extremely important that you sign in at the assembly area.** This is how we will know that you are safe.

- NEVER use an elevator to evacuate a building – you could end up trapped!

- If you think you might need assistance evacuating a building, please let your instructor know ahead of time so arrangements can be made.

I wish you all a happy and profitable semester.
