## Assistant/Associate Professor

**Department:** Business and Information Technology

**Closing Date:** Review will begin May 15th; However position will remain open until filled.

**Employment Detail:** Full-Time, Permanent, Tenure Track

### Duties:
The professor will become a team member of the faculty in Tech’s Business and Information Technology degree program. This innovative program combines traditional business coursework with a focus on the use of information technology in business decision making. The successful candidate must be able to teach a variety of courses in business disciplines, but would primarily be responsible for teaching quantitative business management, finance, advanced excel modeling, and/or accounting based courses. The courses will be at the undergraduate level with a possible opportunity to teach an occasional course in the Masters in Project and Engineering Management program. The normal teaching load is four courses per semester with release time given for activities related to scholarship and service. The faculty member will be evaluated for tenure and promotion purposes in the areas of teaching, scholarship, and service.

### Knowledge, Skills & Education Required:
A related master’s degree in a business or information systems discipline (accounting, marketing, finance, economics, management, MIS, etc.) or MBA is required. Any candidate without an earned doctorate must possess at least five years of professional experience. A doctorate acceptable to the department is required for promotion to full professor and tenure.

### Preferred Education & Experience:
Earned doctorate acceptable to the department and/or professional certification. Preference will also be given to a candidate who possesses relevant teaching experience.
