

Assistant/Associate Professor of Environmental Engineering

DEPARTMENT: Environmental Engineering

Employment Detail: Permanent, Full-Time

Closing Date: Applications received by February 28, 2017 will be guaranteed full review and consideration. Applications received after that date may be considered until an adequate applicant pool has been established.

DUTIES:

The candidate must be able to teach courses in environmental engineering at the graduate and undergraduate level, specifically water and waste water engineering, hazardous waste engineering, soil and subsurface remediation and other courses as required by the department and the School of Mines and Engineering. Associate Professor/Department Head: To provide leadership to the Environmental Engineering Department into the future. Additional responsibilities include teaching undergraduate and graduate engineering courses specifically in the Environmental Engineering field and guiding graduate students' research work. Duties as department head include but not limited to providing leadership to the program, faculty and students; development of departmental budgets; fundraising; stimulating research activities; recruiting new students, and interaction with campus administrative offices. The person in this position will have dynamic role in developing vision, mission, and goals for the department and provide sustainable and consistent leadership to implement them. The department head promotes research activities in the department including broadening areas of research as needed. The individual will also coordinate with the graduate school in recruitment and funding of graduate students. The individual will also be able to interact effectively with the Industry Advisory Board for their active involvement with the department.

REQUIRED QUALIFICATIONS:

- PhD in Environmental Engineering/Chemical Engineering or a closely related engineering discipline
- Excellent English written and oral communication skills
- Strong commitment to conduct and/or coordinate research
- Demonstrable expertise in Environmental Engineering
- Professional Engineering License or capability to obtain a PE license within two years

PREFERRED QUALIFICATIONS:

- Experience in providing leadership in a similar academic setting or industrial setting with proven research background for the Associate Professor position
- Able to teach courses at graduate and undergraduate levels
- Previous collegiate teaching and administrative experience
- Experience with ABET accreditation

To apply, please submit the following items:

1) Letter of application, 2) Resume, 3) Name and contact information for 3 professional references

The items listed above should be sent or e-mailed to:
