Assistant Professor, Health Care Informatics

DEPARTMENT: Health Care Informatics
Employment Detail: Permanent, Full-Time, Academic Year
Review Date: June 10, 2016; however position will remain open until filled

DUTIES:
The assistant professor will become a team member of the faculty in Tech’s Health Care Informatics (HCI) program. This program is a multidisciplinary field combining health care and information technology that helps students with the design and development, implementation, evaluation and management of healthcare information systems. Current areas of program emphasis include population health and analytics, information systems security, electronic health records, and systems optimization. The successful candidate must be able to teach a variety of courses in the HCI program with the appropriate related technologies. This position requires teaching in the classroom as well as on line courses. The normal teaching load is four courses per semester with release time given for activities related to scholarship and service. The faculty member will be evaluated for tenure and promotion purposes in the areas of teaching, scholarship, and service.

REQUIRED QUALIFICATIONS:
- A Master’s degree in Health Informatics or related field (such as Nursing with a specialty in Informatics, Data Science, Information Technology, Clinical Informatics, Health Analytics, etc.)

REQUIRED SKILLS:
- Must have excellent verbal and written communication skills in English

PREFERRED QUALIFICATIONS:
- Knowledge and experience with higher education academic programs, support services, community resources and the university culture is preferred.

To apply, please submit the following items:
  1) Cover Letter Specifically addressing the above qualifications,
  2) Resume’
  3) Name and contact information for 3 professional references
