STUDENT EMPLOYMENT
JOB CLASSIFICATIONS AND WAGE GUIDELINES

The following classifications should accommodate both special ability pay raises and year to year experience. All beginning employees will normally start at the minimum or entry salary. Special consideration may be given when qualifications such as ability, education and/or experience exists. A letter of justification stating such qualifications must be received by Enrollment Services before special consideration can be given.

A raise may be granted to those students who have worked in the same capacity for at least one semester, or who have assumed additional responsibilities, without a promotion to another classification. Enrollment Services must receive a student employee wage change request form and a student employee evaluation form with justification for consideration. No pay increase may be granted without prior written approval from Enrollment Services.

The following wage rates for each classification are effective for positions in employing departments at Montana Tech.
