

The Office of the Commissioner of Higher Education (OCHE) has been working with the campuses of the Montana University System to develop a set of Common Course Numbers (CCN) to be used universally across the campuses to make it easier to transfer between campuses. The first 14 disciplines have been converted effective this summer semester. The next 15 pages show the classes that are offered at Montana Tech, and the new course names and numbers to assist you in developing your class schedule.

These are the fourteen disciplines that have been converted are:

Accounting

Chemistry

Computer Applications

Economics

Geosciences

History

Languages

Literature

Mathematics

Political Science

Psychology

Sociology

Statistics

Writing
