Dear Applicant:

The Big Horn Basin Society of Petroleum Engineers (BHB-SPE) is proud to continue its support of college students who are seeking to enter and contribute to the Petroleum Industry by again offering one or more scholarships for the 2016-17 academic year. To be eligible, the student must be pursuing a college degree in Engineering or Science directly related to the industry and have definitive plans to pursue a career within the oil and gas industry. Scholarship amounts are expected to be between $500-$2000. Prior recipients and applicants are encouraged to re-apply.

The recipient(s) will be chosen by a committee consisting of members of the BHB-SPE based on the following criteria:

- Preference will be given to students who are, or plan to pursue a Petroleum Engineering Degree. Students in other engineering/science curriculum will be considered based on their plans for contributing within the oil and gas industry.
- Preference will be given to students whose permanent residence (hometown) is within the Big Horn Basin. Students from outside the Big Horn Basin attending regional colleges will receive consideration based on the remaining criteria.
- In addition, students will be judged on their historical academic performance, and their interest in and knowledge of the petroleum industry as demonstrated by specific and concise answers to the relevant questions on the application.

It is our intention to encourage as many applicants as possible by minimizing the length of the application. Concise answers demonstrating your knowledge of, and interest in, the petroleum industry and those careers contributing to its success are favored. Please send a completed copy of the application form and a copy of your current official transcripts to:

Baker Hughes
Attn: Michael Burke
Scholarship Chairman – BHB SPE
