  I.T. would like to ask everyone to help maintain our equipment by remembering to turn off the room projectors (or AV system if equipped) when finished. Please do not leave the room projector or AV system on unless you visually see the next person wanting to use it.

- A projector's lifespan and bulbs are based on hours. Leaving them on requires them to be replaced much more frequently. The average cost of a replacement bulb is $300. The average cost of a replacement projector is $1,850.

If you are passing by a room and see a projector on, and the room is unoccupied, please turn it off.
