I love how Montana Tech helps students gain hands-on experience. My internship with Digger Athletics has been a game-changer, and I have friends who have landed jobs thanks to networking through the business program. Tech truly sets students up for success!

– Rhys Layton, Business student

CAREER PATHS

Career paths Students looking to continue their education past a two-year Associate of Applied Science (A.A.S.) degree can earn a Bachelor of Applied Science (B.A.S.) degree within 2.5 years. This program is specifically designed to allow students who have earned an A.A.S. in any discipline the opportunity to complement their studies with formal business training and earn a B.A.S. degree. The B.A.S. credential added to A.A.S. will position you at the top of the list for employers looking for added value credentials and will set you up for career advancement as you gain experience.

pinion

A Montana Tech Business degree has allowed graduates to pursue professional careers in a number of fields both within and outside of Montana. Additionally, a number of students have gone on to graduate school in Accounting, Management, or Law.

WHY STUDY BUSINESS AND INFORMATION TECHNOLOGY AT MONTANA TECH?

- Earn the SAP Student Recognition Award, a 9-credit certificate demonstrating expertise in SAP, the world's leading Enterprise Resource Planning (ERP) software. Montana Tech is the only university in Montana with the SAP University Alliance designation, giving you a competitive edge.
- Learn from faculty with extensive industry experience who prioritize teaching and mentorship. They are dedicated to your success and offer opportunities for cross-disciplinary, project-based learning.
- Montana Tech graduates consistently outperform their peers on exit exams. You'll gain versatile skills applicable to a wide range of business careers and learn to use modern business analytics tools like Microsoft Excel, Power BI, Tableau, and SAP® Analytics Cloud to make data-driven decisions.
- Academic Recognition: Students earn induction into Sigma Beta Delta.

HANDS-ON LEARNING

Montana Tech's Business and Information Technology program emphasizes hands-on learning to prepare you for a successful career. You will apply business concepts to real-world scenarios through class projects, case studies, business simulations, and a senior capstone project. Additionally, faculty mentors will assist you in securing high-quality internships with companies in your area of interest, providing you with valuable professional experience.
