

Walk to School *With the* **OREDIGGERS**

Every elementary school in Butte will have designated drop-off and meeting spots where Montana Tech student-athletes will greet students and walk them safely to school. This "Walking School Bus" will gather additional children along the route as they head to class. Best of all, every student present on the 30th will receive a free t-shirt, generously provided by Intermountain Health, the Lance Scholars Program through the Montana Tech Foundation, and the Montana Tech Mining Engineering Department!
